

IMPACT REPORT 2021

SNPLA

Together,
we can fix this!

LIFESAVING PROGRAMS

2021

By providing high-volume veterinary clinics in targeted, underserved neighborhoods, staffed by veterinary professionals with expertise and sensitivity, we can reach the goal of reducing shelter intake and eliminating the euthanasia of healthy animals. SNPLA's comprehensive approach to animal welfare consists of five key program areas.

01 – Accessible Spay and Neuter

21,875
Spay / Neuter
Surgeries

In December 2021, SNPLA achieved the incredible milestone of **250,000 spays and neuters**. We could fill a Super Bowl stadium - three times! - with all of those cats and dogs. The impact of fixing that many pets in our local community is tremendous. When SNPLA was founded in 2007, over 15,000 cats and dogs were euthanized in LA City shelters every single year. As Los Angeles' largest spay/neuter provider, we take immense pride in helping to reduce shelter euthanasia in Los Angeles by 86%.

LIFESAVING PROGRAMS

2021

71,141
Vaccines
Given

02 – Low Cost Vaccine Clinics

Vaccinating dogs and cats against infectious and life-threatening diseases is one of the most effective ways to help them live long, healthy lives. SNPLA provides free and low-cost vaccinations at our three stationary clinic locations as well as by bringing these essential services directly to under-served communities via our SNP Mobile program.

4,376
Wellness
Visits

03 – Affordable Wellness Care

Nearly 50% of pets in the U.S. do not receive adequate veterinary care. Of those families that report challenges accessing care, approximately 70% say it is due to financial constraints. Without access to affordable veterinary care, it's possible that hundreds of local families would be forced to relinquish their pets to shelters in desperation. SNPLA works to ensure that no animal suffers from a lack of necessary medical care due to their family's financial constraints. Thanks to SNPLA, Los Angeles families have a safety net for their furry family members in times of need.

11,184
Microchips
Inserted

04 – Animal Welfare Advocacy

SNPLA's highly trained staff provides outreach and educates families about the benefits of preventative health care, including the benefits of microchipping your pets. Microchips help families find lost pets and also help animal shelters return pets to their rightful owners. The ability to locate a lost pet's owner more efficiently helps prevent shelter overcrowding and reduces stress levels for all animals in the shelter.

LIFESAVING PROGRAMS

2021

05 – Kitten Lifesaving Program

610

Kittens
Saved

Neonatal kittens are the single most at-risk group of animals entering shelters nationwide. Most animal shelters simply can't provide the kind of around-the-clock care neonatal kittens require. SNPLA's Kitten Lifesaving Program works directly with our local shelter system to immediately rescue these vulnerable babies and provide them with the urgent and specialized care they need to survive to an adoptable age. In the past six years, SNPLA has saved 6,000 kittens from euthanasia and helped them find their loving, forever homes.

WHAT'S NEXT

EXPANDING OUR PAWPRINT IN LA COUNTY

San Pedro Animal Care and Wellness Clinic

Opening Summer 2022

We are excited to open a new facility to complement our three stand-alone clinics and mobile clinic in order to meet the overwhelming demand for SNPLA's services. **CAMP SNPLA** (Community Animal Medicine Project) will provide families with the care they need to keep their cats and dogs healthy and happy throughout their lives. Projected to **serve over 7,500 pets annually**, our new clinic stays true to our foundational model of providing care in locations where we can have the highest impact. We are extremely proud to continue to serve the public, shelter, and rescue communities by providing the highest quality veterinary care, accessible to all!

SNPLA - CHANGING LIVES

So incredibly grateful for this place. Found a rescue kitty on the interstate someone had thrown out and everyplace wanted \$800-\$1000. They treated my baby so well. I can't say enough about this place!! thank you

- Stacey W.

I absolutely love Dr. Zoe, she's both professional and kind. I wouldn't take my dogs to anyone else ... SNPLA has great services at VERY reasonable prices. The staff here is also great...

- Carolyn R.

Thank you, thank you SNPLA. I lost my job due to the pandemic and perfect timing my dogs suddenly had several issues. I am so grateful ... My dogs were treated and seen at a fraction of the cost. Not only that it was the best care they have ever received...They truly care about animals and are very knowledgeable. Five gold stars!

- Danika V,

Great to find people that actually care about Animals. What a difference to the other places I've been that ONLY care about how many things they can charge you for.

- Michael S.

THANK YOU!

A heartfelt thanks to the many donors and following major contributors who have made SNPLA's life-saving programs possible.
